Army

Marine Corps

Overview

The initiative from the Department of Defense (DOD) to accurately mark, track and trace components used in the assembly process requires bar code scanning solutions that are durable, secure and provide accurate scanning of each bar code the first time, and every time. Code's suite of 2D bar code scanners are engineered, manufactured and tested with this purpose in mind and each are equipped with a wide range of features for even the most demanding environment.

The CR1200 is Code's entry level offering - a durable, tethered hand held scanner that can read both large and small bar codes. The CR1200 has a vibrating motor for good read notification in noisy environments, and a durable housing that can withstand multiple drops to a concrete surface.

Code's next offering, the CR2500, has dual-field optics to read both high-density and very wide bar codes in the same unit, anti-glare technology for reading bar codes printed on shiny metallic surfaces or printed behind glass or plastic surfaces. The CR2500 can be configured as a wireless Bluetooth scanner or tethered, and has a modular and durable housing that can survive the most demanding environments as well as be configured for either hand held or palm format use.

Lastly, the CR3500 offers the same features and benefits of the CR2500 and adds a screen and keyboard for data entry applications.

A CodeOne service plan can be added to each product with 3 levels of service with options for faster RMA turnaround times, loss/theft replacement, and additional years of warranty, all of which provide peace of mind in knowing that your investment is protected.

CR1200

CR2500

CR3500

Code Bar Code Readers

CR1200

Features & Benefits

- Durable overmolded housing and secured cable ensure drop-shock survivability
- Ruggedized design with permanent lanyard hook
- Exceptionally 'smooth feel' trigger - three million activations
- User feedback with vibration and/or audible tones
- Reads and decodes all symbologies including: 1D, 2D, Data Matrix, PDF417 and 30+ others
- Firmware is field upgradable
- JavaScript Application Development Suite allows program development to prepare captured data for integration with enterprise software
- Two cabling choices: USB or RS232

CR2500

Features & Benefits

- Dual field optics, both high density and wide field in the same unit
- Reflection and glare reducing illumination
- Lightweight, ergonomic, fully-mobile modular design (hand held, handle, presentation stand)
- Rapid battery replacement, multiple battery formats and charging options
- User feedback with vibration and/or audible tones
- Unequaled performance on rounded, curved, and shiny surfaces
- Over 10 MB of batch data and JavaScript memory
- Reads all linear stacked and 2D matrix symbologies
- High speed digital image capture
- Firmware is field upgradeable

CR3500

Features & Benefits

- Dual field optics, both high density and wide field in the same unit
- Reflection and glare reducing illumination
- Lightweight, ergonomic, fully-mobile modular design (hand held, handle, presentation stand)
- Rapid battery replacement, multiple battery formats and charging options
- User feedback with vibration and/or audible tones
- Unequaled performance on rounded, curved, and shiny surfaces
- Over 10 MB of batch data and JavaScript memory
- Reads all linear stacked and 2D matrix symbologies
- Withstands multiple drops to concrete from 6'
- High speed digital image capture
- Multicolor LEDs with optimal focus and FOV indicator

Extended Service Plan

Features & Benefits

- [CodeOne Standard Service Plan](#) at no additional cost to you, offers a standard warranty period
- [CodeOne Plus Service Plan](#) enhances the security that comes with CodeOne's standard warranty. The Plus Service Plan offers a 7-day turnaround, extends the warranty period by a year, and offers a variety of discounts on Code products and services
- [CodeOne Premier Service Plan](#) offers a 1-day turnaround, extends the warranty period by two years, offers replacement readers for lost or damaged readers at deep discounted rates, and offers a greater savings on Code products and services
